Professional Summary

Creative Junior Digital Marketer with practical experience in social media marketing, content creation, campaign planning, branding, and visual design. Skilled in audience research, customer journey mapping, and multi-channel campaigns. A strong communicator with a hands-on approach to growing brand visibility and engaging audiences. Also a Youth Coding Instructor who teaches children and teenagers to build games with Scratch 3 and Woof JS.

Work Experience

Digital Marketing Student

January 2026 – Present

Uncommon.org · Harare, Zimbabwe

- Create social media content, marketing visuals, and promotional materials using Canva.
- Develop content strategies, captions, and campaign concepts for marketing projects.
- Conduct audience research, develop buyer personas, and create customer journey maps.
- Plan multi-channel campaigns across social media, email, and promotional content.
- Developed The Velvet Fork restaurant campaign covering content, concepts, and audience strategy.

Youth Coding Instructor (Volunteer)

2026

Uncommon.org · Harare, Zimbabwe

- Teach primary and high school students how to code games using **Scratch 3** and **Woof JS**.
- Facilitate hands-on sessions at local schools, helping learners build and test their own games.
- Explain coding concepts in an accessible, engaging way, adapting lessons to different ages and skill levels.
- Encourage creativity, problem-solving, and logical thinking by guiding students from a game idea to a working project.
- Developed communication, teamwork, and leadership skills through direct learner engagement.

Digital Marketing Project Experience

2026

Practical & Academic Projects · Harare, Zimbabwe

- Developed marketing campaigns and content strategies for practical business scenarios.
- Created digital assets using Canva and Figma.
- Practised SEO, email marketing, Google Ads, and analytics through assignments.

— The Velvet Fork — Restaurant Marketing Campaign

- Built a full digital marketing campaign for a restaurant brand, covering branding, audience targeting, content strategy, social media, and email marketing to strengthen its online visibility.
- Defined the target audience and buyer personas, then mapped the customer journey from discovering the restaurant online to visiting and returning.
- Planned post concepts and captions for social media, supported by email marketing to keep customers engaged.
- **Skills applied:** branding, audience research, content strategy, email marketing.

— Happy Home Furnitures — Mobile App UX/UI Concept

- Designed a mobile app concept connecting customers with local furniture makers in Zimbabwe, making it simple to find and buy locally made work.
- Built user flows around three key moments: product discovery, trust in local makers, and delivery.
- Applied UX/UI principles in Figma to plan clear screens and easy navigation so buyers can browse, compare, and order with confidence.
- **Skills applied:** UX/UI design, user flows, mobile app design, Figma.

— Coca-Cola — Brand Kit & Identity Project

- Developed a complete brand kit to guide a consistent brand experience, covering logo guidelines, colour palette, typography, and brand voice.
- Set clear rules for how each brand element is used, so the identity stays recognisable and cohesive.
- Showed the identity in action through social media applications with consistent visuals and messaging.
- **Skills applied:** branding, visual identity, typography, brand voice, social media design.
